EXPERIENCE

Octanet Developer Intern

Java Developer Intern   **Oct 2023 - Nov 2023**
- Octanet Services Pvt. Ltd. is a company committed to producing exceptional software for each of there clients. Here I got a project of building an ATM interface using Java

PROJECTS

MARKET MATE - An Ecommerce Website
- Market Mate is an ultimate online shopping MERN Stack Project, seamlessly blending cutting-edge technology with user-friendly design.
- Market Mate offers a dynamic platform for both admin and users to explore a vast array of products.
- Whether you're browsing for the latest fashion trends, tech gadgets, or household essentials, Market Mate provides a seamless shopping experience from start to finish.
- Tools Used: MERN Stack (ReactJS, NodeJS, Express, MongoDB, HTML, CSS).

BUDGET BUDDY - A Financial Management Portal
- Budget Buddy is a financial management portal which helps user to keep a record of their income, expenses and all other transactions. The user has to build up their own profile and then start working on the website. All the data of user and transaction is stored in MongoDB
- Tools Used: MERN Stack (ReactJS, NodeJS, Express, MongoDB, HTML, CSS).

OCTANET PROJECT - ATM Interface:
- It is a console-based application with five different classes, the user must enter his or her user ID and pin when it starts. Once the details are entered successfully, ATM functionality is unlocked
- Tool Used: Java

HealthHub - HealthCenter
- Health Hub is a Health center project where people can explore a wealth of information on various aspects of health and well-being and the main objective of the project is to empower users with knowledge to make informed decisions about your health.
- I worked on this project during Hack The Mountains 4.0 with my Team TechPhoenix
- Tools Used: HTML, CSS, JavaScript
