EXPERIENCE

SalesCode.Ai

Technical Project Associate   **Jan 2025 - Present**

Java, MySQL, Kafka, Python, AWS, Data Integration, DuckDb, SOAP APIs

The role primarily focuses on **Backend Development**, involving data integration and automation.

- Engaged in **SLMG (Coca-Cola India)**, overseeing 160,000+ retailers and 1,400 distributors, resolving technical challenges and optimizing SQL queries to enhance report generation efficiency.
- Contributed to **BBPL (CCI Project)**, leveraging DuckDB to enhance data processing efficiency by 20-30%.
- Designed and implemented Java and SQL-based data transformers, developed automated workflows, and utilized Kafka Streams for real-time data processing.
- Monitored and analyzed AWS logs to ensure system reliability, while also contributing to other projects involving complex data transformations and process automation.

Technical Project Trainee   **Sep 2024 - Dec 2024**

Java, MySQL, Kafka, Python, AWS, Data Integration

- Focused on **Backend Development**, **data integration**, and automation as a Trainee.
- Learned and gained hands-on experience in Java, SQL, and Kafka Streams for real-time data processing.
- Worked on data transformers and explored SQL query optimization for better performance.
- Assisted in building automated jobs to streamline data flow into internal databases.

Software Test Engineer Trainee   **July 2024 - Aug 2024**

Java, Flutter Automation, Manual Testing, MySQL, JIRA

- Assisted in Flutter Automation to ensure the functionality and performance of the company's application.
- Conducted API Automation and Security Automation to enhance testing efficiency and reliability.
- Performed manual testing, authored comprehensive test cases, and documented defects using JIRA for issue tracking and resolution.

SKILLS

Languages: Java, C++, C, Python, DSA
Full Stack Development: JavaScript, React Js, Node Js, HTML, CSS
Database: MySQL, MongoDB, Duck Db
Operating System: Linux, Windows
Project Management Tools: Confluence, JIRA
Soft Skills: Time Management, Adaptable to any environment, Cross functional coordination

PROJECTS

MARKET MATE - An Ecommerce Website

- Market Mate is an ultimate online shopping MERN Stack Project, seamlessly blending cutting-edge technology with user-friendly design.
- Market Mate offers a dynamic platform for both admin and users to explore a vast array of products.
- Tools Used: MERN Stack (ReactJS, NodeJS, Express, MongoDB, HTML, CSS).

BUDGET BUDDY - A Financial Management Portal

- Budget Buddy is a financial management portal which helps user to keep a record of their income, expenses and all other transactions.. All the data of user and transaction is stored in MongoDB
- Tools Used: MERN Stack (ReactJS, NodeJS, Express, MongoDB, HTML, CSS).

HealthHub - HealthCenter

- Health Hub is a Health center project where people can explore a wealth of information on various aspects of health and well-being.
- I worked on this project during Hack The Mountains 4.0 with my Team TechPhoenix
- Tools Used: HTML, CSS, JavaScript

EDUCATION

Examination	Institute	Year	Grade
BE CSE Undergraduate	Chitkara University, Punjab	2021 - 2025	CGPA: 9.0
Senior School, CBSE	KBDAV, Senior Sec. Public School, Chd	2020 - 2021	Percentage: 91.6%
Secondary School, CBSE	KBDAV, Senior Sec. Public School, Chd	2018 - 2019	Percentage: 91.8%
